

The introduction of the new name Veraclean Critical Cleaning Plus is combined with a new and improved quality:

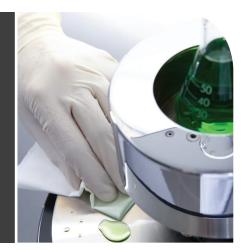

Veraclean Critical Cleaning Plus has a 30% better absorption capacity

Veraclean Critical Cleaning Plus has a more consistent quality, it helps to reduce defects and improves the cleaning performance

Veraclean Critical Cleaning Plus is low linting, matching the previous performance of Chux but specially designed for the areas where quality is critical

Area of growth

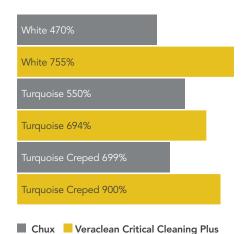

Specialty is a key focus and growth area for Chicopee, our primary focus is to enable our partners' growth.

As a worldwide leader in the professional wiping market, Chicopee is focused on offering high quality solutions for critical wiping applications that add value for the user.
